The Union party hold their convention, nominate their candidates, who are not acceptable to the whole party, consequently the disaffected part induce a Union man to make the race—le it right to danounce this candidates as a secessionist, a sympathizer, and to move heaven and earth to have him arrested and confined in some military prison? (2) I would further ask, Will any but the Union nominess he permitted to make the race at the August election?

(3) And if permitted to run, and if so fortunate as to be alected, will they he parmitted to serve, or will it he right and just to ramovn them to some military prison, and thus stifle the voice of the people? when their exemption from their texpensions if you which men are held subject, have habitually used epenly and holdly such treasonable language as no man among us would dare to use or could use with impunity, except in exclusively rebel company. They have dono this evidently and avowedly to subserve the cause of treason, and no doubt they have succeeded to a considerable extent, for woman's influence in every community is erect and notorious.

Wo of course have no objection in the world to answering "explicitly and candidly" the questions of our correspondent. We will answer them in their order.

(1.) What our correspondent hero refers to is evidently nothing more or less than the suppression of the secession party in the State. We think this not merely right but obligatory. The secession party in the State is a party organized for the promotion of the existing conspiracy against the government. It is a treasonable party; and as such its snppression, it practicable, is necessarily obligatory upon the government. And its suppression is practicahle. It therefore should be suppressed. That is to say it should not be allowed to manifest itself. It should be cut down wherever it raises its baleful head. There is no other course in logic or in patriotism. The government that ahonld recognize the right of such a party to exist would thereby repndiate its own right to exist. The right to destroy cannot co-exist with the right to preserve. How can there be any difference of opinion amongst loyal people on a point so vital and so plain? Our correspondent does not doubt the power or the nre authorized to say that the spirit of it is duty of the State authorities to suppress a intended to embrace women as well as men, gang of counterfeiters or of horse-thieves; and that Gen. Boyle has ordered the Provost yet he doubts the power or the duty of the Marshal to fit up a house in a proper manner Why does he doubi? Is treason less unlawful than counterfeiting or horse- doubt the General sineerely and carnestly restenling? Is it an offence of less enormity or of less destructiveness? We fear our correspendent's public sympathics are not in a very | ecuted wherever occasion shall be given for its henthful condition.

(2.) No: it is not right. It is wrong, illiberal, tyrannical. But a Union man who runs for office in opposition to the regular nomince should first be very sure that his Unionism is been a crying evil among us, and that no arof the genuine stamp. Otherwise he might not afford the experiment. This is a suggestion that will probably ocenr to every pradent man in the category mentioned. from lips that would seem to have been fash.

(3) Of course every loyal man who desires to rnn for office at the August cleetion can unake the race. He will find no obstacles exept such as exist at all times. Lest this hould not fully answer our correspondent's nestion, however, we will add, that, if any doubt, in obedience to the spirit of the order lisloyal man runs for office at the August of a superior officer: election, he will probably do it as a perjurer. nasmuch as we understand that the nations authorities in the State have determined to require every candidate suspected of disloyalty o take the oath, with or without bene according to the circumstances of the for office under the government of this Commonwealth, with the affairs of which the national authorities have nothing directly to lo, but because he is a suspected traitor moving toward a position where, if he be actually a traitor, he can make his treason effectual It is the manifest duty of the national authorsuch persons, and, so far as principle is coneerned, it makes no difference whether the rnment of this Commonwealth, a military hospital, the lines of the national army, a nee where disguised treason might advantageously work its purposes. The principle is bat the anthorities of the government may lawfully arrest a suspected truitor. The cirances which conspire to render him susneidents; they do not, whatever they may be, any paper in the nation more unconditionally at all effect the principle. The power in the for the Union than the Louisville Journal is caso is exclusively national. Whatever interrenee with State affairs the exercise of the or ever will be such a paper. We, however, power may occasion is incidental and nothing ask, we insist, for some important and unnore. Such interference is neither the ruling purpose nor the principal effect of the not intend to abandon them, knowing full exercise of the power. On the contrary, well that they are as necessary to the existence the ruling purpose is so far as possible the of the Union as the existence of the Union is lawful suppression of treason, and the prin- to them. eipal effect is the accomplishment of that purpose. The nathorities can have no special rule for office-holders. Treason is treason, whether in or out of office. As to what our correspondent says about stifling the voice of the people, that is cant, the Union cause when they flud themselves and cant, too, that smacks very strongly of depredated on by rebel guerillas and protected disloyalty. IMPORTANT DECISION -It will be remembered that, a few weeks ago, a slave named Edmond was arrested as a fugitive on hoerd an upwar bound eteamer by officer Gilchrist, and placed i juil in th's city, it being the object of the policeman to return the negro to his master, who resides in Tennescene. It appears that the negro, who had been permitted by his master to work on the rebel fortifications at Fort Donelson, had been seized by the Federal army, and that he had been turned over to Centain Leland, of New York, a member of General Grant's staff. At the time of his arrest the negro was on his way to New York. and was travelling under a pass from Gen. Grant A short time after the negro's arrest, Capt. Leland appeared and commenced preceedings in the United States Court, Judge Ballerd, for the no gro's release. The evidence was heard a few day since, his Honor Judge Belletd withholding his decision until ysetsrdey, when he decided, in effect, that the negro is no longer the property of his master, the master having forfeiled the right of property in the slave when he permitted him to be need in aid of the rebellion. The negro wa

accordingly released. Soothern Candles .- A gentleman who passe through t hattancoga lately brought us the stump ends of two candles from the once elegant an well-appointed Crntchfield House in that city They appear to be mede of mutton tallow an beeswax, and are, as compered with our ster candler, what soft soap is to the most delicate Windsor or Naples. In contemplating these specimen of Conf derate chandlery, we ere led to regard them as types or moulds of the moral, physical and political condition of the insurrection. In Secessia "the light of other days has faded," end though "the trumpsts make the snn dance," we can't see how the pretty rebels could trip the and all its apportenances were destroyed. All mazes of the waltz at night to such wretched, sickly, and fatty looking apologies for candles.

THE CELEBRATION OF THE FOURTH .- The interest attending the celebration of the Fourth of July in this vicinity will culminete at the Fair Gronnds, and the attractions will be rare indeed Lonisville has never known such a celebration as those who have the management of the forthcoming display will youchsafe. There will be patri otic addresses by those whose hearts are warme by the fire of eloquence, music and dancing for the light of heart and nimble of foot, choice refreshments for epicares, and sport beyond measure for all that attend. The festivities of the day will close with a grend display of fireworks at the intersection of East and Walnut streets.

An Abominante Nuisance.-The gutter or wards Second street, is in a condition to breed disease if it is not soon repaired. The grade o the gutter is lower in the centre of the square than at the intersecting streets, and the consequence is that filth accumulates in large puddles, which the refuse water from an adjacent pnm keepe always in sgitation. The stench is abom inable to passers by and intolerable to resident in the vicinity. Nothing but gross delinquency on the part of the proper officers has pormitted this nnisance to remain so long unahated.

the appearance to-night of Wilkes Booth as the Duke of Gloster In the tragedy of Richard III, and we have already expressed the opinion that his rendition of the character is one of the mos original and forcible ever seen on the America boards. We thank the manegement for having secured to us the gratification of seeing Mr. Boot before the season closes, though his engagemen mnst unavoidably he a short ons.

We learn with deep regret from the Nashville Union that General Dumont's health is in very feeble condition. Confined closely to his room by an increasing presente of business for waeks at a time, his system has been greatly enfeebled for want of proper exercise. He returned from a very fatigning expedition the other day worn ont and prostrated. We sincerely trust with the Union that he may be tlessed by a apesdy recovery.

If the Cairo correspondent of the Chicago Tribnne is not flying a canard when he announce thet among the prisoners taken hy General Fitch on White river, is General Hindman, who has heen commanding the Confederates in that quartsr, we have made an important capture. He was formerly a member of Congress from Arkensas, and distinguished himself at the battle of Shiloh

infantry, left the city last evening by the steamer Forest Busen for Owenshoro. COMMENCEMENT EXERCISES -The commence

DISTRESSING ACCIDENT. - A Logan county ressing accident. It eppears that several fine norses have lately been stolen from citizens liv-

ng in the vicinity of Gordonsville, in that county and other depredations have been committed in the edge of Todd county, not far distant from Gordonsville. Capt. Morrow with a pertion of his Homs Gnard determined to hunt cul the marauders, and on the 20.h inst, while making ready to start on the expedition from Gordons ville, Mr. John Kennedy, son of Judge Kennedy, of that place, a young man about 21 years of age, was shot by the accidental discharge of one of bis own platols. He had, it appears, taken out of the holster for some purpose, and n the attempt to replace it before mounting his orse, the accident occurred. The ball, after passog through the hols'er, took effect in one side of nis abdomer, entering the cavliy, and, ranging down through his groin, came out about midwey of his thigh. Mr. Kennedy wes the subject ntense suffering for forty-eight hours, when he x sired. He was a young men of unflinching inegrity, of urhane and pleesing address, and was odeared to a large circle of friends and reletives His untimely death has cast a gloom over the society in which he lived; but il is a satisfaction to know that death to him had no tertors. He died as he had lived, a Chrislian.

The Patisian correspondent of the New ork Commercial says the French official journel ublishes with astonishment the following figures with regard to the funds in the United States. I ocicber last, says this peper, Treesury notes a New York were 86: three months later they wer at 93; on the 8th of Mey, instent, they were a ar, and now at the last dates, the 17th, they were at 105. "Such figures as these," remerks hs Moniteur, "ere more elequent than words, and it might heve added, such figures were never before exhibited by any nation with a colossal wer n ils shoulders. The people of Europe are at ast waking up to the fact that America is waging war such as no other nation in the world i capable of, and avery day the governments of Europe are fixing their eyes with more attenti pon the immense developments of the struggl The ucw ecientific facts in the art of wer which eech combat establishes are not less curicus than than the immense anergy and codurance o the people. COTTON BURNING .- The Nashville Union learn hat eighteen bales of cotton, which had been urchesed in Giles county by Messrs. Roth & milh, of that city, were hnrned at Lynnville Station in that county on Thursdey night les llip cotton was hought from rebels and pald for The above named firm and some other parties los ixty-four bales by the gnerillas some weeks ago It is remerkable that nearly all the cotton hurned thet region either belonged to or had been ought by Union men. Some forty hales were ought of a rehal planter near Elkton, and had heen removed. That night some persons ann posing the huyers hed not removed their cotto set firs to thirty additional bales which had been left in the gin house, end the cotton, gin-house these depredations should be made good to loval men by immediate levies on the rahels of the sur unding neighborhood. It is plain that they would be almost impossible were they not coun enanced by the vicinity.

The Boston Courier says the discovery of he disappearance of one or two nebulæ in the reavens has excited the liveliest interest among tronomers. So unlooked for a phenomenon fair y startles the hardest understanding. This is a very dull place indeed. You might spend days and weeks in perambulating round this hilly town and could not find anything to nterest you. We have no trains here yet, owing to the destruction of the Red river bridge, two miles north of this place, by the rebels, and why there is so much delay in rebuilding it I cannot magine. In consequence thereof, the subscribers o your paper do not get it by mail until it is a week old via Nashville and the Cumberland river In fact, we only get the mail from Lonisvill once a week when we might have it once a day. But through the energy of the news boys wh ride up to the State line (12 mlles) every dey, we get the Jonrnal on the following morning at ten cents per copy. The mail could easily be brought by the train to Red river every dey and sent afer, if such arrengements were mede, by the proper euthority. The epan on the north side of the Cumberland can be repaired in a very short time; the draw and span on the south bank of the river are all "O. K" At present the river is quite low, and makes navigation, even with the mallest crafte, quite difficult between this place and Nashville. Yesterday we hed a good rsio, ccompanied with a very heavy thurd ir-storm. the feeling of the people hers. I learn from oms that the Union sentiment is growing etrongr. Everything is quiet and peaceable, and if the ers were only running to this place, it would no oubt have a botter eff c' upon the reople, and nake business a little more brisk. The ouisville and Nashville come to this place, ouble line from here to State line, and the one wire takes the Elkton and Kentucky road over t Main stem, thence to Nashville: the other wire north to Russellville and Bowling Green. The rebols had a line extending to Hopkinsville, bu we have no use for that line. So, no doubt it i pretty well broken down. Nothing more at present. Go on the good work, and make treifor quail. JAMES ISLAND FIGHT, -- We have eccounts by way of Richmond and Memphis that a battle was fought on the 16 h between the Union forces and the Confederates on James Liand, opposite Charleston. The rebels claim a victory after their usnel style, but the Charleston Morenry of the 17th was very apprehensive for the safety of troops and their loss of officers, and predicted a renewal of the attack. It is known that cur gunboats are co operating with the land forces up the Stono river, and they may have prevented the retreat of the rebels from the Island. It will he recollected too that the United States gnnboat Connecticut passed Charleston on Wednesday last, the 18th, and spoke the blockading squadron, when Captain Woodhull reported all well in the squadron. From the vessel the white tents of our troops on James Island could be seen, with the flag flying, and on Fort Sumpter end Fort Moultrie the rebel fligs were flying at half mast, for what resson was not ascertained. If any reverse had occurred, it would have been made known to those on hoard the Connecticnt. We, therefore, have every confidence that General Hunter is pressing the cradle of secession very strongly, and
